

DATENBLATT

IVM Print Colour T - Rollenware - thermoklebendes Subli-Papier
Art.-Nr.: 3751

INK JET DYE SUBLIMATION TRANSFER PAPER, a transfer paper with thermo adhesive which sticks to the textile and keeps it under tension during the sublimation process. This reduces textile shrinkage, solves the ghosting problem and increases line sharpness and detail printing quality.

PROPERTIES

Product reference	IVM Print Colour T
Paper weight	95 g/m ²
Coating	Proprietary coating Thermo-adhesive coating
Inks	Water-dispersed sublimation dye inks for piezo and thermal printing heads
Transfer yield	Up to 95%
Other properties	Good printed shelf life Slight wet strength
Directions for use	Remove packaging when you are ready to print Print on the rough side
Available rolls	111,8 x 100 cm

Stand September 2019
